

## Pengangkutan

The topic for this week is **pengangkutan** or *transportation*. We learned the different types of transportation (**jenis pengangkutan**) in general and also **pengangkutan awam** in Chicago and Kuala Lumpur.

The three major types of pengangkutan are:

By Jocelyn

Pengangkutan darat: land transportation

Pengangkutan udara: Air transportation

Pengangkutan air: Water transportation

## Pengangkutan darat

MOTOSIKAL

KERETA

# PENGANGKUTAN AIR

KAPAL

SAMPAN

PERAHU/BOT

## PENGANGKUTAN AWAM DI MALAYSIA

PENGANGKUTAN AWAM- PUBLIC TRANSPORTATION

LRT

By Jocelyn

KERETA API

TEKSI

## BAS RAPIDKL

### NAIK

*Naik* by itself means *to go up* or *to get up*.

Contoh:

**naik tangga.**

Go up the stairs.

It also can be used in the context of transportation, when one is talking about what means of transportation do they take to get somewhere. In other words, 'naik' means *to get on*.

Contoh:

**Dia naik bas ke sekolah.**

*He takes the bus to school.*

**Saya naik kereta api ke Chicago.**

*I take the train to Chicago.*

**Mereka naik teksi ke festival itu.**

*They took a taxi to the festival.*

**Cik Jocelyn suka naik basikal ke kelas.**

*Ms. Jocelyn likes to ride her bicycle to class.*

\*But if you choose to walk somewhere, then you just say, 'jalan kaki'.

**Saya jalan kaki ke kelas semalam sebab hujan.**

*I walked to class yesterday because it was raining.*
