3. **pendek**: short (in Length)
4. **siling**: ceiling

Berapa bilik tidur?

As students, most of us live in apartments near campus. But our families have homes (usually) somewhere else. Since the places we live in are part of our daily lives, let's try to describe them. We can tell the address, count the rooms, name the colors the rooms are painted, talk about the contents of the rooms. We can tell whether the rooms and the windows are big or small. If we have pets, we can talk about them. Below is a fictional conversation between Cik Jocelyn and Fred.

Jocelyn: Rumah keluarga Fred di mana?

[Where is Fred's family home?]

Fred: Keluarga saya tinggal di Chicago.

[My family lives in Chicago.]

Jocelyn: Berapa bilik tidur dan bilik air di rumah itu?

[How many bedrooms and bathrooms do you have in the house?]

Fred: Lima bilik tidur dan tiga bilik air.

[Five bedrooms and three bathrooms.]

Jocelyn: Di dapur ada peti sejuk?

[Do you have a refrigerator in your kitchen?]

Fred: Ada, ada banyak kabinet juga!

[Yes, I do. There are many cabinets too!]

Jocelyn: Rumah Fred besar!

[Fred's house is big!]

Fred: Ya, rumah keluarga saya besar dan ada 2 ekor kucing di rumah itu.

[Yes, my family house is big and we have two cats in the house.]
